BRIEF SUMMARY

Council is in receipt of correspondence from the Western Australian Planning Commission (WAPC) seeking comment on an application for a boundary realignment and amalgamation, reducing the number of lots from three to two, between Lot 106, 1211 and 4611 Harvey Road, Cartmeticup as contained in **Attachment 11.1.2**. This report recommends that Council conditionally support the application.

BACKGROUND/COMMENT

The land has historically been broad acre farming land. There does not appear to be any proposal to change this land use.

Lot 1211 is currently separated in two by Harvey Road. The proposal is to amalgamate the western portion of Lot 1211 with Lot 4611 and the eastern portion of Lot 1211 with Lot 1061. The resultant configuration is a rationalisation of lot boundaries to provide for contiguous farming lots. The proposal does not result in the creation of any additional lots and provides for constructed road frontage to both Lots A and B via Harvey Road. The amalgamation of these lots will further assist in continued broad acre farming practices.

STATUTORY/LEGAL IMPLICATIONS

Planning and Development Act 2005 - Town Planning Scheme No.1.

The land is zoned Regional Rural with the purpose of the land being for rural/agricultural purposes. The Scheme generally presumes against subdivision in the Regional Rural zone however does provide for boundary realignments and amalgamation that does not result in the creation of additional lots.

State Planning Policy 2.5 – Rural Planning (2016)

Development Control Policy 3.4 – Subdivision of Rural Land (2016)

This Development Control Policy is that with which the WAPC will consider subdivision in rural areas of Western Australia. Specific to this proposal is the following clause:

6. ***Circumstances under which rural subdivision may be considered. In considering applications under section 6, the WAPC will consider rural subdivision in the following exceptional circumstances:***
 - (a) ***to realign lot boundaries with no increase in the number of lots, where the resultant lots will not adversely affect rural land uses;***

BRIEF SUMMARY

The purpose of this report is for Council to determine a retrospective planning application for an oversize outbuilding on Lot 147 corner of McDonald and Garstone Roads, Woodanilling.

The officer recommendation would be that the outbuilding be granted Planning Approval subject to conditions.

Previously the landowner has applied for an additional oversized outbuilding at the site, approval of which was deferred pending the submission of a development application for a dwelling at the site.

Council has now received an application for a dwelling at Lot 147 McDonald/Garston Road, which is currently being assessed by an officer. During the period between the submission of the application for a dwelling, the landowner has constructed the additional outbuilding without Planning Approval or an approved Building Permit. On 22 July 2022, the landowner Mr. Annice, attended the Shire Offices and advised both the Deputy Chief Executive Officer and Planner that the building had been constructed at the site.

BACKGROUND/COMMENT

An application has been received by Council for an additional oversized outbuilding to be constructed on a Local Rural zoned lot prior to the approval for a single dwelling at the site. The site is generally cleared and is 3.8484 acres in area. The proposal meets the setback requirements for a Local Rural zone.

An oversized outbuilding and water tank was approved at the Ordinary Council Meeting 9 February 2010 on the then vacant lot subject to the following conditions:

1. This approval shall expire if the development hereby permitted is not completed within two years of the date hereof, or within any extension of that time which, upon written application (made before or within 21 days after the expiry of the approval) to the Council, is granted by it in writing.
2. The development hereby approved shall occur generally in accordance with the plans and specifications submitted with the application and these shall not be altered or modified without the prior written approval of the Council.
3. Any use, additions to and further intensification of any part of the building or land (not the subject of this consent) shall be subject to a further development application and consent for that use.

4. An application for a Building Licence being submitted and approved by the Shire prior to any construction works being commenced.
5. The building hereby permitted shall only be used for purposes incidental to the residential or rural use of the property and shall not be used for any commercial or industrial purpose and shall not be used for human habitation
6. Non-reflective natural colours which blend with the landscape to the satisfaction of the Building Surveyor being used on the external walls of all buildings except for rainwater tanks. Please note that unpainted zincalume cladding does not apply.

That outbuilding was constructed and the water tank installed in the subsequent months after Planning and Building approval.

The application as presented before council now does not meet all the policy requirements for this zone and therefore requires specific consideration by Council.

The additional outbuilding has an area of 234m² consisting of a lock up area 180m² (18x 10) and a lean to area of 54m² (9x6). It is not unusual in regional areas and indeed larger Peri Urban properties adjacent to metropolitan areas to establish lockup outbuildings with the provision for carports and for the storage of maintenance equipment.

Generally, the form of maintenance equipment that is used on this type of property is that of a small tractor, slasher and firefighting equipment. Currently there are several large pieces of earthmoving equipment located at the site.

A letter has been supplied in support of the application and this is attached. The applicant ascertains that the additional shed is required for water catchment and to store materials and machinery for the construction of the new house. A planning application for a dwelling has now been received.

In the absence of a valid house approval, Council must consider any possible land use implications that the additional large outbuilding may have for the site. In particular, it must be established if approval would set an undesirable precedent for the development of other local rural zoned lots in the area. It must also be considered whether or not approval can be considered in the interest of orderly and proper planning.

At the ordinary Council Meeting of the 21 December 2021, Council considered a further additional oversized outbuilding at the site. In considering the application Council resolved:

COUNCIL DECISION – ITEM 10.3 ADDITIONAL OVERSIZE OUTBUILDING PRIOR TO A DWELLING

Moved Cr Douglas, seconded Cr Smith

That in respect to the application for an additional outbuilding at Lot 147 Garstone/McDonald Road Woodanilling, that Council resolve:

To defer the further assessment of the application until such time as approval has been sought and approved for a single dwelling at the site.

Council has now received an application for a single dwelling at the site. The house is a modular construction with a wallaby coloured colorbond roof and the wall cladding is to be colorbond monument and strausse white. This application was received on the 16th of September 2022 and meets all scheme requirements including setbacks.

STATUTORY/LEGAL IMPLICATIONS

Planning and Development Act 2005

Planning and Development (Local Government Planning Fees) Regulations 2000

The regulations provide for an additional fee where development has occurred prior to approval being granted by way of a penalty. In this instance it is twice the initial application fee.

Town Planning Scheme No.1.

The land is zoned Local Rural with the purpose of the land being for rural residential purposes. Any other land use should be ancillary to this purpose.

In regard to development that has occurred prior to approval being granted, the Scheme states Section 8;

8.4. Unauthorised existing developments

8.4.1. *The local government may grant planning approval to a use or development already commenced or carried out regardless of when it was commenced or carried out, if the development conforms to the provisions of the Scheme.*

8.4.2. *Development which was unlawfully commenced is not rendered lawful by the occurrence of any subsequent event except the granting of planning approval, and the continuation of the development unlawfully commenced is taken to be lawful upon the grant of planning approval.*

Note:

1. *Applications for approval to an existing development are made under Part 9.*
2. *The approval by the local government of an existing development does not affect the power of the local government to take appropriate action for a breach of the Scheme or the Act in respect of the commencement or carrying out of development without planning approval.*

POLICY IMPLICATIONS

Local Planning Policy 2. –Sheds/Outbuildings.

This policy requires that an outbuilding is not to exceed 72m² in area and is to have a maximum height of 4.2m. The policy also stipulates that an outbuilding is not to be constructed on vacant Local Rural zoned lot without the prior approval for a dwelling.

The proposal before Council does not meet the requirements of the The Shire's Policy 2 - Sheds/Outbuildings in that the cumulative area of the outbuildings is far in excess of the 72m² the policy stipulates (378m²). Council must have regard to a Planning Scheme Policy however is not bound by it.

FINANCIAL IMPLICATIONS

The initial Planning Approval fee of \$147.00 has been paid. There is an additional fee as per the *Planning and Development Act (2005) - Planning and Development (Local Government Planning Fees) Regulations (2000)* and as per those regulations retrospective approval under the Scheme would require an additional fee of \$294.00.

There are penalties that will result from the construction of the building without a building licence however this will be addressed by the Building Surveyor at time of assessing the Building Permit application.

BRIEF SUMMARY

The purpose of this report is to request for Council to approve a budget variation for the Shire's Mitigation Activity Funding (MAFS) application currently in progress with the Department of Fire and Emergency Services (DFES).

The proposed list of projects for 2022/2023 is contained in **Attachment 13.3.2**.

BACKGROUND

The Western Australian Government has established the Bushfire Mitigation Activity Fund to proactively treat extreme, very high and high bushfire risks in combination with the progressive rollout of the Bushfire Risk Management Planning framework.

The Shire has successfully achieved funding of \$4,800.00 under the 2021/22 round for the list of applied projects.

2022/2023 Funding Round

The Mitigation Activity Fund round in 2022/23 is seeking to continue supporting activities that build the fire management capacity and overall resilience of communities. It targets on-ground treatments that address extreme, very high and high bushfire risks on State-owned or vested lands located within or adjacent to regional town sites across Western Australia.

The identified projects, if approved, will be completed, and funding acquitted by 30 June 2023. This grant funding will assist the Shire in its ongoing implementation of bushfire risk management, consistent with its adopted plan.

A copy of the Shire's Bushfire Risk Management Plan is contained in **Attachment 13.3.1**.

At present, a total of \$8,000.00 has been set aside within the 2022/2023 annual budget for mitigation funded works. Shire Officer's lodged an application on 19 September 2022 for a proposed sum of \$78,699.00, which will continue the shared responsibility of bushfire mitigation within the Shire of Woodanilling. The Shire should be informed by DFES by the end of November if the application has been successful with the works then to carry out.

The Shire has been successful over a number of years with this program and has been supported in reducing the risk to the community, residents and the district. The Community Emergency Services Manager (CESM) has been working extensively with relevant stakeholders to support the continued reduction of risk.

The Officer's recommendation is to support the grant total in principle however the total may vary depending on the number of applications received from local government recipients.

COMMENT

Subject to Council resolving to make the necessary budget (income) adjustment, the proposed mitigation application will enable the Shire to implement a total of \$78,699.00 of identified works, consistent with the endorsed Bushfire Risk Management Plan. The funding, if successful, will allow for treatments which include bridge works, slashing and spraying maintenance and clearing of vegetation.

This is the 5th year of applications submitted for mitigation funding for the Shire. A successful application and delivery of the mitigation works will involve the Community Emergency Services Manager working closely with the Shire's Works Coordinator to ensure a robust risk management approach to delivery. To ensure these works are delivered according to the parameters of the funding agreement, there will be internal project management applied to ensure the most effective delivery outcome.

It must be noted that the current Plan is due for review however the Chief Executive Officer and CESM were advised by DFES representatives that the guidelines for review of these plans are in review process and that the Shire are better to wait for the new guidelines.

STATUTORY/LEGAL IMPLICATIONS

Under State Hazard Plan - Fire (Office of Emergency Management 2022), an integrated Bushfire Risk Management Plan is to be developed for local government areas with significant bushfire risk. This Bushfire Risk Management Plan was prepared for the Shire of Woodanilling in accordance with the requirements of the Guidelines for Preparing a Bushfire Risk Management Plan (Guidelines) (Office of Bushfire Risk Management 2015).

This request aligns to Section 6.8 of the *Local Government Act 1995*, which states:

Local Government Act 1995

6.8. Expenditure from municipal fund not included in annual budget

- (1) A local government is not to incur expenditure from its municipal fund for an additional purpose except where the expenditure —
 - (a) is incurred in a financial year before the adoption of the annual budget by the local government; or
 - (b) is authorised in advance by resolution*; or
 - (c) is authorised in advance by the mayor or president in an emergency.

* Absolute Majority required.

POLICY IMPLICATIONS

There are currently no Council policies associated with this item.

FINANCIAL IMPLICATIONS

There is overall a nil financial impact to the Shire. The Department of Fire and Emergency Services will pay the grant funds (no GST applied) in two instalments. The initial 50% of the total grant will be paid once the Funding Agreement has been executed, and the remaining 50% (up to the total grant and total cost) will be paid following acceptable grant acquittal.

Any unexpended funds will be returned to the Department of Fire and Emergency Services within 30 days of the acceptance of the grant acquittal, as per conditions of the grant. The Shire of Woodanilling must keep adequate financial accounts and records to enable identification of the grant, payments and receipts.

The 2022/2023 Annual Budget an allocation of \$8,500 was adopted. Therefore the balance of funds totalling \$70,199.00 is to be added into the budget as a variation.

Pursuant to section 6.8 of the *Local Government Act 1995* a budget amendment is required.

Governance

OBJECTIVES

To promote continual improvement that is supported by efficient and effective governance structures and processes.

STRATEGIES

By ensuring legislation is used to effectively enable quality decision making.

CW.3 Expand Fire Awareness.

LO.2 Implementation of Fire management Plan adopted recommendations including, but not limited to: - Policies – Committee consideration of Town Brigade.

CONSULTATION/COMMUNICATION

The CESM has been working with relevant shire employees and DFES on this item. The CESM has also advised the BFAC and relevant elected members who are on the BFAC through this process.

The Bushfire Risk Management Plan as adopted by Council includes a Communication Strategy and is contained within **Attachment 13.3.1**. The Plan underpins the funding request to the Department of Fire and Emergency Services.

Consultation will be facilitated through this plan, dependent on the works to be undertaken. Consultation is critical to the development of the Bushfire Risk Management Plan and associated treatments, particularly because it is tenure blind, and looks at risk across all tenures.

RISK MANAGEMENT

The risk management processes used to develop this Bushfire Risk Management Plan are aligned to the key principles of AS/NZS ISO31000:2017 Risk Management - Principles and Guidelines (AS/NZS ISO31000:2017), as described in the Second Edition of the National Emergency Risk Assessment Guidelines (NERAG 2015). This approach is consistent with State Emergency Management Policy (State Emergency Management Policy) 3.2 - Emergency Risk Management Planning

The risk in relation to this matter has been assessed as “Moderate” within the Risk Management Table below with the principal consequence being that the Shire and the Community will have to fund its own mitigation activities.

13.4.BUDGET VARIATION - SHIRE OF WOODANILLING STANDPIPE UPGRADE – BOYERINE

BRIEF SUMMARY

This item presented to Council for consideration of the replacement of the Boyerine Standpipe due to complete failure to the solenoid and is currently not working. The request will require a budget variation with nil effect between accounts.

BACKGROUND/COMMENT

The Boyerine Standpipe is currently out of service due to electrical damage from ants and/or mechanical issues with the latch solenoid. The site has now been inspected and it has been declared a complete failure within the solenoid. Unfortunately, this current model is no longer available and cannot be replaced.

This is a vital use for our community and the Bush Fire Brigades along with external contractors who utilise this site. The urgency to replace is due to the oncoming fire season.

This will compromise the current Woodanilling standpipes located on Burt Road in the town site and the other in Boyerine, as neither have received any recommended updates, historically. They are currently using technology that is no longer manufactured and able to service the current units.

It has been recommended by Smarter Control, the providers of the Standpipe technology in the region, to align our current standpipes with the 2022 version which they can currently supply.

Shire Officers have made contact with the Shire of Katanning who have upgrade to this system last year and are happy with the product they have installed. This system allows for uploading all water usage through an internet connection that can be viewed at any time just by logging in. The old system required that the officer drive to the stand pipe and plug in a laptop to download the usage information to charge out to customers.

They have suggested that they replace the core components but keep the current framework as this can be retrofit. The changes and costs are as follows.

1x ILC PLC	\$ 1,588
200W solar Panel Additional + 75Ah 12v Deep Cell Battery and bracket	\$ 697
1x 50mm Motorised Valve to replace old solenoid valve	\$ 867
1x 4G Router 1x Dome Antenna Software & Programming	\$ 1210

Installation Travel and fuel	\$ 1,472
------------------------------	----------

Operational Costs

Sim card & Support \$43per month (Payable 12 months in advance)	\$ 516
Annual Cloud Server Access & License fee	\$ 695
This brings the total cost for the upgrade to:	<u>\$ 7,045</u>

If you wish to update both your standpipes, I can provide the second unit at a discounted rate and install it in the same trip

\$ 5,683

With this upgrade all reports and card activations can be done remotely 24/7, and users can access both locations with the one card. The update will add another 10 years onto the lifetime of the product

We can maintain the current swipe cards so that there is no additional cost for setting up new cards.

There would be annual ongoing costs with the installation of the 2 new components:-

\$43 per month per Sim card \$1,032.00

Annual Cloud Server Access & License fee

\$ 695.00

Total

\$1,727.00

Council may consider to change only the current Boyerine standpipe with the option to consider in the 2023/2024 draft budget discussions to upgrade the Townsite standpipe and the option to add additional meterage.

Community Request

With the recent Annual Electors Meeting, it was raised with regards to the opportunity for better access to local residents that required additional non-potable water through a smaller outlet as reduced costs, to be accessible.

This may be a prime opportunity for Council to support an additional 25mm outlet to be added to this site, either at Boyerine or the Town standpipe. At the time of this report, Shire Officers were waiting for further costings on this option.

Shire Officers are yet to find another supplier to be able to quote on upgrades to the Standpipes, which are specific with the aspect associated with the costs and readings required to maintain service delivery to the community.

STATUTORY/LEGAL IMPLICATIONS

This request aligns to Section 6.8 of the *Local Government Act 1995*, which states:

Local Government Act 1995

6.8. *Expenditure from municipal fund not included in annual budget*

- (1) *A local government is not to incur expenditure from its municipal fund for an additional purpose except where the expenditure —*
 - (a) *is incurred in a financial year before the adoption of the annual budget by the local government; or*
 - (b) *is authorised in advance by resolution*; or*
 - (c) *is authorised in advance by the mayor or president in an emergency.*

** Absolute Majority required.*

POLICY IMPLICATIONS

There is no Policy relating to this item.

FINANCIAL IMPLICATIONS

There is no allocation in the 2022/2023 Annual Budget. Therefore a budget as a variation will be required to complete the urgent works required to maintain the service delivery of the Boyerine Standpipe. The provisions of the ongoing costs will be reviewed at budget review period.

Pursuant to section 6.8 of the *Local Government Act 1995* a budget amendment is required.

Account Number	Type	Account Description	Debit \$	Credit \$
135010	Increase Expenditure	Economic Services - Expenses relating to Standpipes	\$7,500	
144030	Decrease Expenditure	Other Property & Services – Parts & Repairs		\$7,500
Total cost is of Nil effect to the budget.				
Reason: To utilise the funds from the Parts and Repairs within the Other Property & Services area to the Expenses relating to Standpipes to do urgent upgrade works for the Boyerine Standpipe for the oncoming fire season and general water availability to stakeholders.

CONSULTATION/COMMUNICATION

Deputy Chief Executive Officer spoke with contractor from Smarter Control, Shire Officers from Shire of Katanning and the Chief Executive Officer.

RISK MANAGEMENT

If the Shire does not manage its finances adequately and allows budget expenditure to exceed allocations and the Shire then finds itself unable to fund its services that have been approved through the budget process.

Failure to fulfil statutory regulations or compliance will place the Shire as non-compliant to legislation. To reduce the risk, it is required to submit budget variation requests to Council as they arise, identifying financial implications and ensure there is nil effect on the budget adopted.

BRIEF SUMMARY

The purpose of this report is to advise and request for Council to support the Seniors Week Event to be held during the period of 6 to 11th November 2022. The provisional support of funds of up to \$1,000.00 may be required to assist with additional costs outside the grant applied with Department of Communities, Council of the Ageing grant.

BACKGROUND/COMMENT

At the recent Electors Meeting held 23rd August 2022, it was identified through the local residents and community members of the lack of Health Services available to the residents in the Shire of Woodanilling. Enquiries with the local Health Services based in Katanning has identified services that are willing to come to Woodanilling to help to activate, inform and engage with the residents of the district.

A successful Grant Funding application has been received for \$600.00 from the Council of the Ageing (COTA) Western Australia along with the Department of Communities. The funding amount on offer was amounts of up to \$1000.00 for Councils to hold an event for seniors during WA Seniors Week 6 – 11 November 2022.

The funding will go towards holding a High Tea and Health Forum for Community Members with representation from the Regional Health Services to provide information about the services they offer seniors in Woodanilling.

The Woodanilling P & C have quoted for the catering for the High Tea and the CWA Ladies have offered to perform some light entertainment in the way of a singalong.

The Officers recommendation is to support this event along with Council to consider any provisions of additional costs associated and to make it a well informed and engaged event for the local community members and residents.

STATUTORY/LEGAL IMPLICATIONS

This request aligns to Section 6.8 of the *Local Government Act 1995*, which states:

Local Government Act 1995

** Absolute Majority required.*

POLICY IMPLICATIONS

There are no Council Policies relevant to this item.

FINANCIAL IMPLICATIONS

The cost to hold this event is \$1,000.00 and the funding application was successful for \$600.00 which leaves a shortfall of \$400.00. There are funds allocated in the 2022/23 Annual Budget for this grant funding application, therefore there will be additional expenditure being incurred in the 2022/2023 financial year. The level of expenditure will be \$400 to top up the required funds to hold the event however consideration of the use of \$1,000.00 be available from General Ledger 105040 (Town Centre Enhancement) for the purpose of this event.

However the approval of the grant of \$600.00 is not within the annual budget as income received. Pursuant to section 6.8 of the *Local Government Act 1995* a budget amendment is required which will be completed through the budget review process.

BRIEF SUMMARY

The purpose of this report is to endorse the Shire's **amended** annual Fire Break Notice and Bush Fire Information 2022/2023 being issued under section 33 of the *Bush Fires Act 1954* for the upcoming fire season. The power to endorse this notice has been delegated to the Chief Executive Officer in accordance with section 48 of the *Bush Fires Act 1954*. There is no power to sub-delegate under this Act.

The proposed amendments are as follows:

Fire Break Notice change in Prohibited Burning Period

Prohibited Burning Period to change to "1 November to 27 February (inclusive)"

Bushfire Executive:

Senior Fire Control Officer 2 "Graydn Wilcox (with Call Sign and Mobile to be added)"; and

Glencoe Brigade FCO/Captain's call sign be amended to "Glencoe 1"

BACKGROUND/COMMENT

At its meeting of 21 June 2022, Council endorsed the Shire's annual Fire Break Notice and Bush Fire Information 2022/2023.

At the same meeting Council also supported the extension to the prohibited burning period as requested by the Bush Fire Advisory Committee.

This extension to the prohibited burning period was supported by the Department of Fire and Emergency Services (DFES) and gazetted by the FES Commissioner on 26 July 2022. The amendment appeared within the Government Gazette dated 29 July 2022.

At the Bush Fire Advisory Committee meeting held 11 October 2022, it was noted by the DFES District Officer that the proposed date changes stated 28 February, which does not take into account a Leap Year.

The Committee also noted some anomalies within the Firebreak Notice regarding Senior Fire Control Officers and call signs for said officers.

The Fire Break Notice and Bush Fire Information 2022/2023 has been amended to reflect these changes.

Should Council recommend endorsement, then Shire officers will arrange advertisement of the Notice within the *Government Gazette* and the local newspaper. In addition, the information on the Shire's website and the Fire Break Notice and Bush Fire Information 2022/2023 brochure will also be updated to provide current and consistent information.
